

Safety Culture Workshop

Denny Patterson

President

Bi-Con Services Inc.

All of our efforts, hard work, programs, meetings, deadlines and quality control processes are for nothing if we get people hurt. Its pretty simple. Work hard, be proud of what you do, and go home with all of your fingers and toes.

Bi-Con Services, Inc.
10901 Clay Pike Rd.
Derwent, OH 43733

Dear Mr. Bookman

Congratulations!

Along with President Mary Tebeau from the Central Ohio Associated Builders and Contractors (ABC), we have reviewed your company's application for participation in the ABC/OSHA Partnership for Construction Safety, and we have determined that you have met the criteria for acceptance.

I am impressed with your company's dedication to safety and health for your employees, and this is reflected in your company's program and for meeting the strict guidelines adopted by this Partnership, as well as the low injury and illness rates your company has achieved. I challenge you to continue to improve your safety and health systems as zero injuries should be your ultimate goal.

To recognize your acceptance into this Partnership, I have enclosed a certificate signed by President Tebeau as well as myself certifying that your company is a member in good standing through December 31, 2009.

Again, congratulations to you and your company!

Sincerely,

A handwritten signature in black ink, appearing to read "Deborah Zubaty".

Deborah Zubaty
Area Director

Cc: Mary Tebeau
