

MAKE A DIFFERENCE IN YOUR INDUSTRY!

The INGAA Foundation (Foundation) is uniquely positioned as the forum to convene industry leaders who will develop and deliver safe, affordable, reliable, clean energy solutions into the future through creative problem solving using networking and collaborative efforts, fostering individual and workforce development, and assuring that key industry decision makers are well-informed.

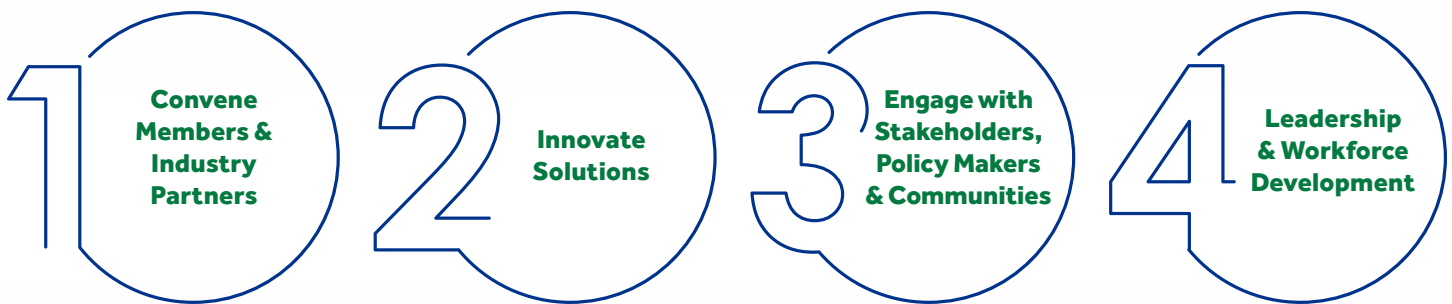

OUR VISION

Develop and deliver safe, affordable, reliable, clean energy solutions for the people of North America and the world.

OUR MISSION

Convene industry leaders from natural gas and additional complementary clean energy solutions to identify and address critical matters related to the development, construction, operation, and maintenance of the gas infrastructure value chain through research, engagement, and outreach.

THE FOUNDATION EFFORTS ARE GUIDED BY THE FOLLOWING STRATEGIC IMPERATIVES:

Membership in the INGAA Foundation offers unparalleled benefits to natural gas pipeline and complementary clean energy solution companies. As a member, you gain access to a thriving community of more than 170 industry-leading companies, including pipeline owner/operators, construction, engineering, environmental, manufacturing, and other service providers. **Establish, build, and sustain relationships with professionals who share a common goal:** identifying and addressing critical matters related to the development, construction, operation and maintenance of the gas infrastructure value chain.

By joining the Foundation, you tap into a wealth of opportunities for growth and innovation. Benefit from our extensive member-driven research studies, spanning more than 200 completed projects, focusing on critical industry issues. Stay ahead of the curve with cutting-edge insights into environmental impacts, improved construction practices, pipeline safety procedures, emerging technologies, and market opportunities for natural gas. Engage in enlightening briefings and conferences that foster knowledge exchange and communication among industry stakeholders, government agencies, and academic institutions.

Join us today and experience the power of membership in the INGAA Foundation—the driving force behind the North American natural gas transmission pipeline industry. Annual Foundation member events include our Spring, Summer Planning & Strategy, and Annual Meetings, as well as workshops approved through the Foundation's annual planning and studies process. Our research process begins with members identifying issues, concerns, and opportunities facing our industry that merit additional exploration and research through a Foundation-funded study, whitepaper, workshop, or guidance document.

THE FOUNDATION STRUCTURE AND VALUE:

Completed more than 200 studies and workshops, including:

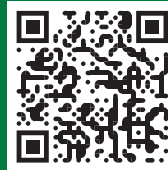

Annually recurring workshops:

- P3 Environmental Forum – facilitates engagement with multiple federal agencies, including FERC, PHMSA, EPA, and USACE, and state agencies, including departments of environmental quality and historic preservation offices
- Pipeline Construction Safety Roundtable (PCSR) and Continuous Improvement/Lessons Learned Workshop (Safety and Quality)

A few sample studies completed:

- North American Midstream Infrastructure Update
- Recommended Practices for Pipeline Integrity Management of Landslide Hazards
- Implementation of Leading Safety Indicators in Contractor's Safety Management Systems
- Study of Hydrogen in Natural Gas Infrastructure
- Technical Guidance: Integrity Assessment using EMAT In-line Inspection
- Environmental Inspector Guidance: Qualifications and Best Practices
- The Risks of Natural Gas Bans (policy evaluation)
